

PALMIN HOTEL SUSTAINABILITY POLICY

In our business, we protect the environment, prevent its pollution, and attach importance to its protection by reducing our negative effects on the environment.

- ❖ We comply with legal regulations and try to reduce our environmental impact.
- ❖ We take care to effectively separate our waste according to its source, groups and hazard classes.
- ❖ We know that using hazardous substances and chemicals only when necessary and as much as necessary will reduce both the negative effects on the environment and the amount of waste,
- ❖ We contribute to the protection of nature by choosing the materials we purchase in our business with "recycling" and "environmentally friendly" labels. We try to create reuse opportunities.
- ❖ We use disposable materials such as paper, napkins, toilet paper and packaging as much as necessary and take care to leave less waste to nature,
- ❖ We store wastes correctly in separate areas according to their characteristics, deliver them to licensed/authorized companies without exceeding the legal storage time limits and maintain their records. We try to use water, energy and all natural resources economically. We share this sensitivity with our employees, guests and suppliers.
- ❖ We measure our performance in environmental management, monitor this data with targets and try to improve our performance.
- ❖ We aim to educate our employees about the environment and increase their awareness. In line with the sustainable supply approach, our suppliers/solution partners;
- ❖ Environmental and Occupational Health and Safety Management Systems have internationally accepted environmental and sustainability labels/certificates.
 - ❖ It has no harmful effects on the environment in production and supply and complies with environmental legislation,
 - ❖ Its resources; It uses/consumes appropriately, without harming natural life or the ecosystem, and complies with hunting bans.
 - ❖ It works to minimize and manage its wastes correctly, and offers less packaging or bulk packaging alternatives in its product packaging,
 - ❖ Environmentally friendly, economical, local, attaches importance to ethical values, uses recyclable or recycled materials, organic, bio, vegan, not tested on animals, does not contain harmful chemical components, etc. to offer alternatives.
- ❖ To be a domestic and local production/service provider.
- ❖ We attach importance to products/services that reflect/promote the cuisine, traditions and culture of our country/region, and we convey this perspective to our stakeholder suppliers. We try to create efficient purchasing opportunities with our suppliers and aim to reduce the environmental impacts arising from supply processes. To protect our world from possible dangers, we use our energy efficiently and set targets to reduce our energy consumption.

- ❖ In order to fulfill both our responsibilities towards nature and our legal obligations, we follow national and international standards, laws and regulations, voluntarily carry out studies that will reduce energy use and/or continuously improve our energy consumption performance, and monitor the results of our work.
- ❖ We set targets and include energy efficiency in our training programs to ensure the participation of our employees.
- ❖ We attach importance to collaborating with all our stakeholders to create common goals and results in energy management. We try to continue our interaction with our guests, employees, visitors and all business partners in order to reach an overall level of awareness and consciousness on these issues.
- ❖ We try to research, find, purchase and use suitable energy-efficient products, equipment and technology alternatives.
